## TRAVEL INFORMATION - JERSEY 2008

### TRAVEL DOCUMENTS

Important – please check the flight times on your tickets, or if you have been advised that you are travelling with an airline using “ticket-less travel” (e-tickets), please check the latest confirmation received from us for flight timings. Remember the 24 hour clock, and note that timings may have changed from those which were originally confirmed to you due to the possibility of reschedules by the airline. Hotel vouchers are NOT required.

### PASSPORTS & IDENTIFICATION

British Citizens do not require a passport to travel from the UK to the Channel Islands. **However, please note due to increased security airlines are now asking for photographic means of identification such as a passport or driver’s licence.** If you are considering a day trip to France you will need to take a valid passport with you. Nationals of other countries are strongly advised to carry their passports with them for identification and can ask our reservations staff for advice on any special requirements for travel.

### CHECK-IN

You should check-in at least 1 hour before your scheduled flight departure time. Allow additional time to park your car, for public transport delays, increased airport security and weekend congestion. If you have any special seating preferences, or require any special assistance, it is also advisable to allow extra time for checking-in. It is worth noting that – at some airports – flight announcements are not made, information is shown on the monitors in the lounge area.

**Information for travellers from Gatwick, British Airways depart from the NORTH Terminal and Flybe depart from the SOUTH Terminal**

**Information for travellers from Manchester: British Airways, Flybe and BMI Baby depart from Terminal 3.**

### LUGGAGE (see separate information sheet for Flybe flights)

If you can’t carry your suitcase, you won’t enjoy the journey. Don’t make it an immovable object! All airlines restrict the weight of suitcases and adhere to the free baggage allowance. Most flights allow all passengers, except infants, 20kg/44lb of checked luggage. However some flights are restricted to

15kg/33lb and you are advised to check your ticket. To avoid excess luggage charges, passengers travelling together to the same destination by the same flight may, if they check-in together pool their free baggage allowances, perhaps avoiding excess baggage charges. Each passenger (excluding infants) may carry 1 small piece of hand baggage weighing up to 5kg/11lb for use after check-in. **DO NOT** pack the following items in your hand luggage: toy/replica guns, knives, razor blades, scissors, knitting needles or tools.

### YOUR FLIGHT

All UK domestic flights now operate a no smoking policy. The use of mobile telephones is not permitted at any stage of the flight. All personal electrical equipment must be switched off when the seat belt signs are on. Please listen to the safety briefing. Knowing what to do in an emergency could make all the difference to you and your family.
